Coordinator
Prof. R. Gupta
Dr. S. Bhowmik

Organized by
National Institute of Technology Silchar
Silchar – 788010
Assam, India

Introduction

The entrepreneurs of the future will be those people that know the value that radical authenticity and creativity bring. The larger their companies grow, the more innovative and creative they will become.

This program will equip the participant with the skills and knowledge required to identify and respond to market opportunities based on products, infrastructure, modern technologies, and development as an entrepreneur. Also, it will help to learn how to select the different sectors, current status, and development in the sector, to instil an ethos of innovation within a team to embed a culture of entrepreneurship and will develop a strong understanding of various entrepreneurial business models giving the skills and knowledge..

Objectives

- To make/ aware the participants in recent trends and future aspect as an entrepreneur
- To identify the possible sector for become entrepreneur.
- To motivate young persons (Men and Women) representing different sections of society, including SC, ST, Women and Physically Handicapped, Ex-Servicemen and EWS, to consider entrepreneurship or self-employment as one of the career options.
- To enable the target group to think and act in an entrepreneurial way by imparting technical and business skills at an early stage in their career, so that it not only encourages them to consider entrepreneurship as a career opportunity but also helps them become successful in any profession.
