

Introduction:

Outcome based education is student centered instruction that focuses on measuring student performance i.e. outcomes. Outcomes include knowledge, skills, and attitudes. Outcome based accreditation-focus remains on evaluation of outcomes of the program, though input and output parameters are also important.

In 1986, Govt. of India came out with National Policy on Education. As a follow up of this policy statement, Govt. of India established two separate bodies namely National Board of accreditation (NBA) through All India Council for Technical Education (AICTE) and National Assessment & accreditation Council (NAAC) through University Grants Commission (UGC) in the year 1994.

Both the bodies provide accreditation to those institutions practicing prescribed Quality Assurance System and achieve specified level of quality as per the criteria defined. While NAAC concentrates on the Institutional Accreditation NBA focuses largely on the parameters that communicate the strength & weakness of a program. NBA accreditation is also made mandatory for the engineering colleges.

NBA Accreditations:

- Introduction on Outcomes Based Education Objectives

- Methodology and benefits prequalifiers for accreditation process
- Process of developing vision & mission of Institute/Department
- Writing PEOs for UG & PG programmes
- Process of curriculum development
- Defining, redefining & Pos for UG & PG
- File preparation and document management for self-assessment report(SAR)
- Developing courses outcomes(COs) for the subjects: Examples from different program
- Mapping of Cos & Pos, Importance, Rubrics/formats & examples for theory course, Laboratory course
